Continuation of 11. does NOT place the application in condition for allowance because: "all three of them "in line 10 of claim 16, and in line 13 of claim 23, "the swivel joint" in line 11 of claim 22, and in line 7 of claim 25, and "the roller" and "the member" in claim 26 are lacking of antecedent basis, thus render the claimed subject matter in claims 16-26 indefinite. In addition, "for ontion cam to rocker to swivel joint" or like "control cam to push rod to rocker to swivel joint "and the known from the art." in claim 25 renders the claimed subject matter in claim 25 indefinite. Furthermore, claim 25 is rejected under the judicially created doctrine of obviousness-type double patenting as being upstentable over claim 5 of 10.5. Patent (8,926,684.
